

IMMEDIATE PRESS RELEASE

February 16, 2008

Tropicana selects ComStar's "GREEN" Zero ODP HFC R424A refrigerant

Tropicana, a division of the PepsiCo. Inc, is the latest major company to select ComStar's R22 drop-in replacement HFC Green refrigerant, R424A (RS-44). This follows on the heels of the recent announcement that Carrier Commercial had selected and used ComStar's R424A (RS-44) refrigerant to convert existing in-place 25 to 30 ton split systems from R22 at Pratt and Whitney, a subsidiary of United Technologies Corporation,

Tropicana, the soft drink people, will use R424A (RS-44) to convert existing in-place R22 process and comfort cooling equipment at their Florida facilities.

ComStar International Inc. is a leader in the development, manufacturing and marketing of environmentally safe, industrial strength chemical products for the HVACR, indoor air quality, fuel oil and plumbing industries. The RS series of HFC direct replacement refrigerants for R12, R22 and R502 are available world wide through the ComStar manufacturing and distribution network. ComStar's R426A (RS-24) is the only ASHRAE A-1 approved HFC R12 drop-in replacement available on world markets.
